ENGINE POWERED LIFT TRUCKS 1.5 - 3.5 TONNES

STRONG IN EVERY WAY

YOU CAN COUNT ON OUR SMALLER IC ENGINE FORKLIFTS FOR GENUINE ECONOMY, POWER AND NON-STOP PRODUCTIVITY. WHATEVER THE CONDITIONS. THE PERFECT CHOICE FOR DEMANDING INDUSTRIAL APPLICATIONS, THEY COMBINE RUGGED BUILD QUALITY WITH DRIVER-FRIENDLY DESIGN.

Choose the model and configuration that best suits your needs. Stick with diesel or try our latest petrol/LPG technology. Select from multiple engine sizes, chassis types, mast designs and load capacities. Then add specialised application-matched options...

Dusty or hot work environments? See our extra engine protection options. Port-based or mobile tasks? We can fit optional lifting eyes for hoisting onto ships and lorries. Intensive stacking and retrieval of racked goods? Speed things up with our laser fork height pointer option.

Strong performance, of course, comes as standard. You can expect outstanding traction on sloping or slippery surfaces, with pneumatic or solid pneumatic tyres. Meanwhile, a low centre of gravity maximises stability and residual capacity. Fully hydrostatic steering and compact design make manoeuvring quick, accurate and easy.

Get the best out of your drivers with the trucks' comfort features, clear all-round visibility and ergonomic controls. Together with low noise and vibration, they reduce driver fatigue, stress-related illness and loss of performance. In addition, a host of safety aids minimise accident risks.

LOWER COST OF OPERATION

- Long service interval (500 hours) cuts downtime and maintenance costs
- LCD display with large screen and integrated switches encourages correct use and maintenance of truck.
- Bluetooth wireless connection option allows simpler authorised driver identification, as well as quicker programming, diagnostics and servicing, via smartphone or laptop.
- Robust construction minimises repair and part replacement needs.
- Hydraulic pump directly driven by engine reduces number of wearable components.
- Specialised air-intake options include double-element cyclone air cleaner with dust warning indicator, for increased engine service life in dusty applications.
- Specialised cooling options include heavy-duty radiator and dust screen, to reduce risk of overheating in hot work environments.
- LED lights are long-lasting, low-maintenance and energy-efficient.
- Latest petrol/LPG engine technology significantly reduces fuel consumption.
- Auto stop option switches engine off, after a set period of non-use, to save fuel. (Available on petrol/LPG models and on diesel models fitted with electronic control option.)

UNMATCHED PRODUCTIVITY

- Electronically controlled petrol/LPG engines enhance performance.
- Industry-proven diesel engines provide reliable power in all conditions.
- Special powertrain layout lowers centre of gravity for increased truck stability and residual capacity.
- Fully hydrostatic steering combines with small-diameter steering wheel and compact truck design for rapid but precise manoeuvring with little effort.
- Tilt horizontal control option allows quick and confident levelling of forks when out of driver's view.
- Laser fork height pointer option enables driver to direct forks precisely and quickly into pallets and racking.

SAFETY AND ERGONOMICS

- Adjustable steering column with positional memory ensures comfort and – along with large grip and slip-resistant step – eases on/off access.

- Full-suspension vinyl seat is comfortable and durable, with hip restraints, seat belt and adjustability for position, back angle and driver weight.
- Fully floating powertrain results in very low noise and vibration levels.
- Mast, fork carriage and overhead guard design provides excellent all-round visibility in all loading and unloading operations.
- Enlarged screen of LCD colour display (40% bigger than previous version) keeps drivers fully informed, while integrated switches add extra user convenience.
- Fingertip hydraulic control option features an adjustable, comfortable armrest and ensures ergonomically perfect hand positioning, anatomical support and free movement.
- *CrossLever* hydraulic control option combines lift, lower and tilt functions into a single mechanical lever for simple and convenient use.
- Automotive-style pedal layout is familiar and comfortable to use.
- Drum brake system is self-energising and self-adjusting for low pedal effort and easy operation.
- Double-action parking brake avoids unintended release.
- *Presence Detection System+ (PDS+)* provides warning alerts and safety interlocking for seat belt and parking brake.
- *PDS+* seat belt interlock prevents all drive and hydraulic movements – and activates warning light – if the belt is not fastened.
- *PDS+* parking brake interlock prevents driving with brake applied and sounds an audible alarm if driver exits with brake off.
- Bright orange seat belt colour helps in encouraging and enforcing best safety practice.
- Drive speed limitation option allows setting of safe limits for specific applications. (Available on petrol/LPG models and on diesel models fitted with electronic control option.)
- LED light package includes front indicators and rear combination lamps as standard, while headlamps are optionally available on mast for further operating safety.
- Increased mast back tilt angle reduces risk of loose loads sliding from the forks.

Characteristics		
1.1	Manufacturer	
1.2	Manufacturer's model designation	
1.3	Drive: (battery, diesel, LPG, petrol)	
1.4	Operator type	
1.5	Load capacity	Q (kg)
1.6	Load centre distance	c (mm)
1.8	Load distance, axle to fork face	x (mm)
1.9	Wheelbase	y (mm)
Weight		
2.1	Truck weight, without load / including battery (simplex mast, lowest lift height)	kg
2.2	Axle loading with maximum load, front / rear (simplex mast, lowest lift height)	kg
2.3	Axle loading without load, front / rear (simplex mast, lowest lift height)	kg
Wheels, Drive Train		
3.1	Tyres: V=solid, L=pneumatic, SE=solid pneumatic - front / rear	
3.2	Tyre dimensions, front	
3.3	Tyre dimensions, rear	
3.5	Number of wheels, front / rear (x=driven)	
3.6	Track width (centre of tyres), front	b10 (mm)
3.7	Track width (centre of tyres), rear	b11 (mm)
Dimensions		
4.1	Mast tilt, forwards / backwards	∂/β °
4.2	Height with mast lowered	h1 (mm)
4.3	Free lift	h2 (mm)
4.4	Lift height	h3 (mm)
4.5	Overall height with mast raised	h4 (mm)
4.7	Height to top of overhead guard	h6 (mm)
4.8	Seat height	h7 (mm)
4.12	Tow coupling height	h10 (mm)
4.19	Overall length	l1 (mm)
4.20	Length to fork face (includes fork thickness)	l2 (mm)
4.21	Overall width	b1/b2 (mm)
4.22	Fork dimensions (thickness, width, length)	s / e / l (mm)
4.23	Fork carriage	
4.24	Fork carriage width	b3 (mm)
4.31	Ground clearance under mast, with load	m1 (mm)
4.32	Ground clearance at centre of wheelbase, with load (forks lowered)	m2 (mm)
4.33	Working aisle width with 1000 x 1200 mm pallets, crosswise	Ast (mm)
4.34a	Working aisle width with 800 x 1200 mm pallets, crosswise	Ast (mm)
4.34b	Working aisle width with 800 x 1200 mm pallets, lengthwise	Ast (mm)
4.35	Turning circle radius	Wa (mm)
4.36	Minimum distance between centres of rotation	b13 (mm)
Performance		
5.1	Travel speed, with / without load	km / h
5.2	Lifting speed, with / without load	m / s
5.3	Lowering speed, with / without load	m / s
5.5	Rated drawbar pull, with / without load	N
5.7	Gradeability, with / without load	%
5.10	Service brakes (mechanical / hydraulic / electric / pneumatic)	
IC Engine		
7.1	Manufacturer / Type	
7.2	Rated / Nominal output to ISO 1585	kW
7.3	Rated speed to DIN 70 020	rpm
7.4	Number of cylinders / cubic capacity	cm³
7.5	Fuel consumption according to the VDI cycle	l/h / kg/h
7.6a	Max torque	Nm
7.7a	Max torque at engine speed	rpm
Miscellaneous		
8.1	Type of drive control	
10.1	Maximum operating pressure for attachments	bar
10.2	Oil flow for attachments	l / min
10.7	Noise level, value at operator's ear (EN 12053)	dB (A)

DP/GP15-35PT

All dimensions include load backrest. In case load backrest is not used h5 will increase by 390 mm (20P(T), 25P(T)), 350 mm (30P(T)), 240 mm (35P(T)), while h4 will decrease by 390 mm (20P(T), 25P(T)), 350 mm (30P(T)), 240 mm (35P(T)).

The capacities are applicable for pneumatic shaped solid tyres (SE).

* Capacities shown require truck equipped with dual tyres. Consult your dealer for the maximum back tilt allowed, to obtain the capacities specified.

Mast Performance and Capacity

- h1 Height with mast lowered
- h2 Standard free lift
- h3 Lift height
- h4 Height with mast raised
- h5 Full free lift
- Q Lifting capacity, rated load
- c Load centre (distance)
