***Product Reference Guide***

# Tedders

*Pequea hay tedders play a crucial role in improving hay quality and helping farmers meet their productivity benchmarks. We offer a range of products for every application — from our unique fluffers to our heavy-duty four, six and eight-rotor models. No matter what your production needs are, you'll find that Pequea offers excellent value and performance.*

*Like all Pequea products, we manufacture our hay tedders in our New Holland Pennsylvania facility, using quality components and expert craftsmanship every step of the way. Read on to learn about our lineup, or visit a dealer near you for more information.*

# Rakes

*Pequea manufactures a complete line of hay rakes for demanding agricultural applications. Our products balance advanced engineering with real-world insights to deliver performance for today's professionals. Pequea is a dedicated company with a few small product lines — as a result, we're able to actively solicit feedback from our users and incorporate it into our designs.*

*You'll see the difference in a Pequea hay rake when it comes to productivity, ease of use and ongoing maintenance requirements.*
