

B *Compact Tractors*
B2630/B3030

FEATURES

3-POINT-HITCH POSITION CONTROLS

This feature gives you more precise control of your rear implements.

TILT STEERING WHEEL

The Easy Step Tilt Steering Wheel provides a more comfortable driving position, the steering wheel tilts upward and downward.

SLANT NOSE HOOD

To further enhance access and entry/exit the PTO lever is located on the right side of the operator's seat (HST model), or to the right side of the deck center cover (gear-drive model).

MULTI-REFLECTIVE HEADLIGHTS

No matter when or where you're working, our new, multi-reflective headlights will let you see further and better.

RE-DESIGNED FRONT GRILLE

The newly designed front grille is a perfect match with the B2630 and B3030's slant-nose design. It's also easier to clean.

HYDROSTATIC POWER STEERING

This must-have feature provides nimble handling while greatly reducing fatigue during long hours of operation.

WIDELY SPACED FENDER

By setting rear fenders further apart, we created more space for the operator. By angling control levers towards the operator, they're easier to reach. And enlarged lever guides make for easy control lever recognition.

B *Compact Tractors*
B2630/B3030

FEATURES

HIGH-OUTPUT DIESEL ENGINE

To help you tackle tough jobs, the B2630 and B3030 deliver 26 and 30 gross engine horsepower, respectively.

HYDRAULIC INDEPENDENT PTO

An efficient feature that keeps you working, the hydraulic independent PTO lets you engage or disengage both mid and rear PTO without having to stop the tractor.

MORE POWERFUL HST

For increased efficiency, we made our new HST more powerful. For easier operation, there's only one pedal and we made it wider.

MECHANICAL CRUISE CONTROL

At any speed, cruise control allows you to smoothly set, increase/decrease, and override (depress HST pedal) pre-set speeds without resetting the cruise control lever.
