# L4400

## FEATURES

### User-friendly Hydraulic Independent PTO & 3-point Hitch

This convenient feature lets you operate the hydraulic independent PTO without using a clutch. Engaging and disengaging the PTO is incredibly simple. Other features include a flip-type PTO shield, top link holder, and telescopic stabilizers.

### Conveniently Located PTO Lever

To further enhance access and entry/exit, the PTO lever is located on the right side of the operator's seat (all HST models/L4400DT), or to the right side of the deck center cover (L2800/L3400 gear-drive models).

### Wet-disc Brakes

Responsive and smooth, our long-life wet-disc brakes are immersed in oil, and require only the slightest foot pressure to activate.

### Roll-Over Protective Structure (ROPS)

For maximum protection, all models come with ROPS as standard features. A foldable ROPS is standard on the L4400 and optional on the L2800/L3400.

### Cup/Mug Holder

This convenient holder securely fits a cup or a mug so you can always quench your thirst.
