

Stylish Headlamps
Wraparound headlamps not only look sleek but provide ample light to finish work in low-light conditions.

Heavy-Duty Tires
A rugged tractor needs a reliable set of tough, quality tires. That's what you'll find on the 2525, unlike other tractors in its class.

Forward/Reverse Gears
A forward/reverse synchro shuttle with 8 forward and 8 reverse gears enable better productivity, fuel efficiency, and shifting.

Standard Features

Convenience Features:

- Seat with arm rest for added comfort
- Accessible drawbar makes it easy to attach implements
- Differential lock
- Easy to access and spacious tool box
- Cup holder to hold your beverages
- All controls are within easy reach
- Convenient and attractive electrical switches – you can't resist touching them
- Easy to read dashboard, helps you keep an eye on vital information

THE 2525: RUGGED VERSATILITY IN A COMPACT, AFFORDABLE AND EASY TO OPERATE TRACTOR.

Mahindra tractors are built for superior performance – the 2525 is no exception. It's the ideal combination of power, maneuverability, ease of operation and quality – all with a price tag that makes the 2525 the best value in its class. Keep your land looking great without breaking the bank.

With heavy-duty parts like a standard front-end loader and a 25-horsepower engine, the 2525 is capable of tackling jobs large and small. Plus, it includes features that even first-time tractor owners can appreciate. From convenient hydraulic control placement to easy accessible platform, the 2525 is one tractor that is designed for truly comfortable operation.

The 2525 also showcases a sleek, ergonomic design that outshines the typically boxy tractors in its class. And, because the 2525 is a Mahindra, you know you're getting quality parts and engineering throughout. So don't let the compact size or extremely reasonable price tag of the 2525 fool you – it can get the job done. Period.

Customer satisfaction

Who can gauge our commitment to product quality better than Mahindra owners? In a recent study, a leading research firm interviewed Mahindra owners nationwide and asked them to evaluate their level of satisfaction with the performance of their Mahindra tractors. The study found 98% of Mahindra owners were likely to recommend Mahindra to their friends and family.

Cultivating dreams in the U.S.

From army vehicles to farm tractors to major automobile manufacturing, Mahindra's relationship with American industry goes back to World War II – when our parent company, Mahindra & Mahindra, assembled the famous Willys Jeep for American GIs.

After teaming up with International Harvester in 1963 to manufacture tractors, M&M today ranks among the largest tractor companies in the world, with sales of nearly 85,000 units annually in 10 countries.

The Farm Equipment Sector of Mahindra & Mahindra Ltd. received the coveted Deming Application Prize for 2003, considered the Nobel Prize for manufacturing, for establishing Total Quality Management in all business operations. We are the only tractor company in the world to achieve this honor.

Mahindra USA's Tomball, Texas facility was joined by assembly and distribution centers in Calhoun, Georgia and Red Bluff, California – more than doubling our capacity to meet growing demands.

Easy Maintenance.

The grille guard rotates forward easily, with no need for tools. It's a convenient part of this well-engineered tractor.

Grille Guard

Simply remove two pins by hand and you can fold down the grille guard for easy maintenance. No tools needed!

Loader

The loader boom curves to match the tractor's sleek design and to improve your line of sight while working. This feature comes standard.

Easy-to-Read Dash

White dial faces make the instrument panel very easy to read at a glance in any lighting conditions.

3-Point Linkage

Mahindra employs 3-point linkages that are heavy and sturdy to ensure stability. Compare ours to other brands and you can see the difference.
